Please forward the following email to your stakeholders.

Let me know if you need any additional information. I have received a few RSVP's from the first communication.

Dear Stakeholders,

The Colorado Department of Health Care Policy and Financing is contracting with Vital Research, LLC to administer the face-to-face, National Core Indicators (NCI) Adult Consumer Survey for individuals with intellectual and developmental disabilities, NCI-IDD. The survey assesses the performance and outcomes of services provided for individuals with intellectual and developmental disabilities and their families. The approximately sixty (60) survey questions will measure the participants' satisfaction in key areas such as employment, respect/rights, service planning, community inclusion, choice, and health and safety.

The survey is expected to be fielded as early as January 8, 2016. Prior to fielding the survey, each interviewer is expected to complete a two-day training at the Department. The training will be held on January 5th and 6th, 2016.

In an effort to promote communication with our stakeholders throughout the state, the Department is hosting a **NCI-IDD stakeholder meeting** to explain the national perspective of the project as well as the local (statewide) efforts. There will be representation from HSRI (Human Services Research Institute) as well as NCI (National Core Indicators), who collaborate nationally to implement the survey.
